Don't Contribute to Counterfeiters

KNOW YOUR MONEY!

Don't Be Fooled by Forgers

KNOW YOUR ENDORSERS!

The Government never redeems counterfeit money!

1. KNOW YOUR MONEY! Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. COMPARE a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT	*Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.
	Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.
COLORED SEAL	*Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.
	Genuine—Saw-tooth points around rim are even and sharp.
SERIAL NUMBERS	*Counterfeit*—Poorly printed, badly spaced, uneven in appearance.
	Genuine—Figures firmly and evenly printed, well spaced.
PAPER	*Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.
	Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. RUBBING a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. CONSULT an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or $7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.

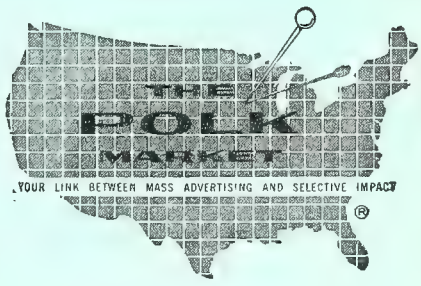
The Polk Market
picks new-car buyers out of the crowd

To meet today's fierce competition, automobile advertisers and their agencies recognize that mass advertising is not enough. Everybody is not a prime prospect for a new car, just as everybody is not a prime prospect for a truck, a tractor or a cabin cruiser.

Certainly, mass advertising is essential to create a receptive climate for new automobiles. But the complete automobile advertising program must cultivate, personally and intensively, those individuals who *can* buy . . . and who *do* buy regularly!

The Polk Market is the one medium that picks these regular new-car buyers out of the crowd and identifies them by name and address.



Then the automobile advertiser and his agency can direct personal, forceful mail advertisements to these identified new-car buyers, using The Polk Market exactly as they use other printed media.

Automobile advertisers and their agencies who have used The Polk Market have been impressed by its ability to move people into action, to identify dealerships and to buttress an entire advertising program.

Continuing research and experience prove that advertisements mailed to potential buyers gain greater attention . . . win far higher readership than any other form of printed advertising . . . tell a much more complete sales story . . . and pay off in measurable sales results — *all at a surprisingly low cost per reader-prospect!*

R. L. Polk & Co. functions in mail advertising exactly as the publisher functions in other printed media. Standard gross rates and specifications have been established by R. L. Polk & Co. when acting as the complete publisher for specific types of mail advertising campaigns. These rates apply equally to advertisers and agencies and are fully commissionable to the agency.

We will be happy to show you how The Polk Market can help you make all your advertising dollars work more effectively. Let us hear from you.

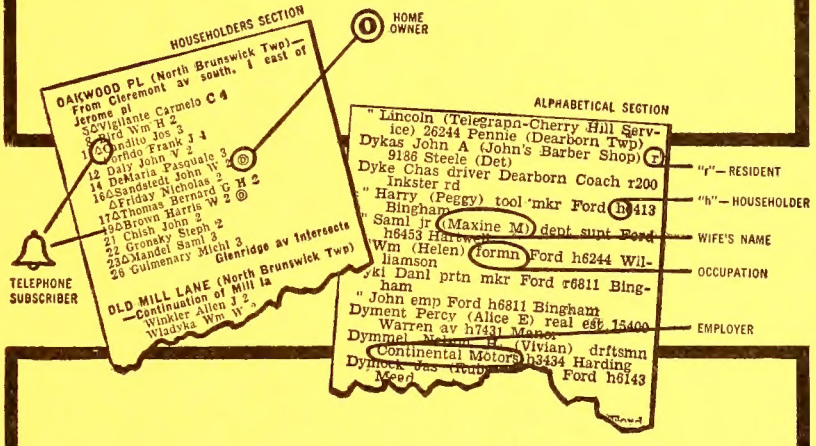
A STATEMENT
OF
ADVERTISING PRINCIPLES

1. Good Advertising ~ aims to inform the consumer and help him to buy more intelligently.

2. Good Advertising ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.



3. Good Advertising ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. Good Advertising ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Advertising Federation of America

(Your Directory publishers fully subscribe to the principles set forth in this statement)

DIRECTORY SYMBOLS AND DESIGNATIONS

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.
